

For more than 20 years, ATP-CGPharm has been supporting clients in the Life Science Industry with a broad range of services in GxP engineering, commissioning, qualification & validation, quality assurance, quality control and environmental monitoring.

We contribute ourselves every day to ensuring medical product quality, patient safety, and strict compliance with regulatory requirements by supporting the continuous improvement of the manufacturing processes and quality programs of our clients. Today we are proud to be renowned throughout the Life Science Industry as one of the preferred business partners and employers of choice.

To support our strong growth, we are looking for talented young professionals and experienced experts. At present we have an open position in Switzerland as:

Medical Device Quality Engineer

Your Role

- You support our customers in a wide range of quality and regulatory affairs related topics
- You participate in the implementation and continuous improvement of the Quality Management System in order to ensure regulatory compliance
- You author, review and update quality and compliance related documents according to general and company specific regulations and guidelines.
- You participate in the processing of deviations, CAPAs and/or change control projects
- You manage projects teams and follow up project timelines, deliverables and project budgets.

About You

- You hold a technical or scientific university diploma and you have at least 5 years of relevant professional experience in the development and/or quality management of medical devices.
- You are a medical device expert and have a profound expertise about relevant guidelines such as ISO 13485, MDR, FDA 21 CFR 800 – 1299, FDA 21 CFR part 11, ICH.
- You have the ability to identify and respond to customer demands and to add value to our clients' needs
- You are mobile and flexible regarding the work location within the German speaking part of Switzerland
- You are fluent in German and English, both spoken and in writing
- You are an experienced user of standard IT tools such as MS Office and ideally familiar with applications like MS Project, LIMS, document management and SAP.

Our Offer

ATP-CGPharm offers long term career opportunities. In addition to an inspiring and motivating work environment we offer attractive remuneration packages and excellent social security coverage.

At ATP-CGPharm we truly value your efforts and we actively support you in your professional development and in reaching your goals.

Next Step

Now it is up to you. Take the next step and send us your application.

It could be the first step in joining a company where your talent and passion are truly valued.
